

STUDIO TECHNICAL RIDER AND SPECIFICATIONS

**7250 Rue Clark, #103
Montréal, QC, H2R 2Y3**

TEL: (514) 843-3685

GENERAL INFORMATION

Loading:

Main entrance is on Clark Street (West); access from street level is as follows:

Two steps up to first landing with a single door with optional latch hook, then another ten steps up to second landing and right through a single door. A short walk down the hallway and two lefts to the entrance to PWM and through the office space to the Studio

Room Occupancy:

Modular seating with a combination of armed office chairs and plastic chairs without arms, maximum occupancy up to 60 total seated individuals.

Description of the Space:

The floor of the space is grey patterned vinyl with a bit of spring to it. Walls are mostly painted white with one wall (West Side) covered in tall windows. One half of a wall (North Side) has been painted with Rosco Chroma Key Green paint and can be used for green screen keying effects in filmed or live performance.

There is a curtain track in front of each wall with black velour curtains, each wall-track being independent of the others.

The ceiling is unfinished dimensional lumber with steel i-beams crossing at various points which can have lighting and other instruments clamped on. Attached to the i-beams and running East/West are two long grid pipes for hanging equipment. On the west end of the room there is also a pipe structure which is connected to the grid with an upright on each end.

Stage Dimensions:

The space is approximately 24'2" wide by 38'1" deep with a slight angled wall on one side. The main playable space available is approximately 24'2" wide by 33'4" deep due to storage space along one wall.

Ceiling/Grid height:

The bottom of the grid sits at approximately 9'5 ½" from the floor. The ceiling is at approximately 11' from the floor with the underside of the i-beams landing at approximately 9'10 ¾".

Dressing Rooms:

No dressing room specific facilities exist. Gendered washrooms exist outside of the office down the hall (three left turns from the office entrance) in the building, which can be used for changing.

ROOM EQUIPMENT AND TOOLS

Seating:

3	3' Brown Wooden Round Stool
1	3' Vinyl Padded Square Stool
47	Grey Office Armchairs
7	White Plastic Chairs
1	Beige Painted Wood Chair

Tables:

4	8' Folding Tables
1	Small Ikea Table
1	3' Folding Table

Ladders:
