ORGANIZATION OVERVIEW

Founded in 1963, Playwrights' Workshop Montréal (PWM) is a nationally-mandated theatre development centre based in Montréal. PWM is led by a team of experienced dramaturgs and arts administrators. With a focus on dramaturgy, its mission is to collaborate with artists in the development of new works of theatre and performance. PWM gives artists the opportunity to create and experiment, dream and take risks. Its collaborative process draws on the team's unique expertise and is tailored to the artist's individual needs.

Playwrights' Workshop Montréal is committed to the exploration of dramaturgy as a process and as a discipline, and its application to the creation of new work. The organization strives to cultivate a space where artists can be vulnerable, challenge themselves, and define their own goals.

While theatre has been at the core of PWM for 60 years, its work now encompasses other forms of devised and interdisciplinary performance. In addition to seeking collaborations across diverse artistic traditions, PWM is strongly committed to supporting works which reflect a wide range of cultural identities and lived experiences. PWM understands dramaturgy as an exploration of all the elements that make a work, how they are brought together to create meaning, and what the process for developing that work might be.
